

# 51912 PV11

# **Product Information**

Repulpable double-sided splicing tape

# **Product Description**

tesa® CaRes 51912 is a double-sided repulpable tape consisting of a tissue paper and a modified water soluble acrylic adhesive.

### **Product Features**

- The patented calcium resistant adhesive (CaRes) for a maximised life time of permanent splices on papers containing calcium carbonate (CaCO3)
- · Very high shear strength
- · Very high heat resistance
- · Very good adhesion values even on heavier paper grades
- · Good tack properties
- tesa® CaRes 51912 is certified by independent laboratories for: Repulpability according to TAPPI UM-213 over full pH-range (pH3 pH9)
- Paper from well-managed certified forests and other controlled sources

#### **Application Fields**

tesa® CaRes 51912 is particularly suitable for

- · Permanent overlapped splices
- Core starting
- · Manual as well as automatic application

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

#### **Product Construction**

Backing non-woven
Total thickness 90 μm
Type of adhesive repulpable tackified Color blue

acrylic

Type of liner repulpable siliconised

paper

## **Properties/Performance Values**

Shelf life time (packed) < 25°C</li>
12 months
Tack
medium

• Static shear resistance very good

# 51912 PV11

# **Product Information**

## **Additional Information**

Other products for permanent overlapped splicing:

• tesa® 51913 - reduced thickness for thinner splices

# Disclaimer

tesa® products prove their impressive quality day in, day out in demanding conditions and are regularly subjected to strict controls.
