

# tesa® 61250

## Product Information

50µm double sided black chemical resistant filmic tape

### Product Description

tesa® 61250 is a double sided self-adhesive tape consisting of a black PET backing and a special chemical resistant adhesive.

### Product Features

- Excellent chemical resistance to different polar and non polar chemicals
- Excellent shock resistance
- Excellent converting performance due to PET backing
- Double PET liner
- Halogen-freeness
- Skin-compatible (ISO 10993-10:2010; ISO 10993-5:2009)

### Application Fields

- Cover glass mounting in wearable devices
- Mounting of parts in electronic devices, e.g. keyboard mounting or earphones

### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Product Construction

- |                            |             |                                |                     |
|----------------------------|-------------|--------------------------------|---------------------|
| • Backing                  | PET film    | • Thickness of liner - inside  | 50 µm               |
| • Type of adhesive         | specialty   | • Thickness of liner - outside | 50 µm               |
| • Total thickness          | 50 µm       | • Type of liner - inside       | PET                 |
| • Color                    | black       | • Type of liner - outside      | PET                 |
| • Color of liner - inside  | transparent | • Weight of liner              | 72 g/m <sup>2</sup> |
| • Color of liner - outside | transparent |                                |                     |

### Properties/Performance Values

- |                       |           |                                     |        |
|-----------------------|-----------|-------------------------------------|--------|
| • Elongation at break | 50 %      | • Tack                              | medium |
| • Tensile strength    | 20 N/cm   | • Temperature resistance long term  | 70 °C  |
| • Chemical Resistance | very good | • Temperature resistance short term | 120 °C |
| • Humidity resistance | very good |                                     |        |
